## INTRODUCTION

This publication contains tables that use four variables to display salary ranges, frequencies, and average salaries for 25 different positions. The four variables are student counts for the school or district served, length of contract, educational level, and total years of experience. Additional descriptive statistics include median, standard deviation, maximum and minimum salary, and percent change in the median salary over the previous year. Due to the level of completeness required on the source for staff information, only the additional descriptive statistics are provided for 22 additional positions.

Information concerning salaries, length of contract, educational level, and years of experience are obtained from the **Professional Certified Staff (PCS) Micro-Computer System**. The PCS file is updated periodically by personnel in the school districts and transmitted to the South Carolina Department of Education. At the Department, the district files are merged with information from the teacher certification files. Information for this publication was accessed July 6, 2007.

As specified in the instructions for the **Professional Certified Staff Micro-Computer System**, the annual salary is the "amount paid for the number of days employed" excluding extracurricular supplements. This salary figure also excludes bonus and incentive pay. Days employed are the number of days an individual receives compensation including all earned leave days.

Only personnel employed full time within the 85 geographic school districts and county education offices are included in this study. Full-time personnel employed in multiple positions are excluded. Length of contract is expressed in months and is determined by days employed: 12-month contract = 240 days or more, 11-month contract = 220–239 days, 10-month contract = 200–219 days, and 9-month contract = 190–199 days. Except for school nurses and physical/occupational therapists, personnel employed for less than 190 days are excluded from this study.

The average daily membership figures are computed from the FY 2006–07 Average Daily Membership Report for 45-Day Period.

Any comments and suggestions concerning this publication are encouraged and should be directed to the team leader.
